ISSUES TO MONITOR

HOURS OF OPERATION - POLLS NOT OPENING/CLOSING ON TIME.

Polls must open at 6:00am and close at 7:00pm on Election Day. Voters in line by 7:00p may vote.

A court may order polls to remain open after 7:00pm. If a polling place is allowing voters to line up after 7:00pm and staying open, notify the AZ Election Integrity Hotline immediately.

ELECTIONEERING ACTIVITY

- Campaigning/electioneering/solicitation by any person is prohibited within 75 feet of the polling place.
- It is important to note that some polling places are “emergency” locations, which means that electioneering is prohibited, even at the 75ft limit
- Wearing political attire/materials by poll workers or observers, or votes verbally expressing support for a candidate, party or ballot measure is prohibited (within 75 ft of the polling location).

PROPER VOTER ASSISTANCE

- Voters with a physical disability or who do not speak English may receive assistance in completing and casting their ballot.
- Two poll workers (one from each party) or another person chosen by the elector may assist (but not persuade), the voter throughout the voting process. Including curbside voters.

VOTER ALREADY CAST BALLOT

- A voter who has already voted an early or absentee ballot is not entitled to vote a regular ballot on Election Day.

- Unless a polling location has real-time access to voter registration records, a voter who received an absentee or early ballot but who has not yet returned it, will turn the early ballot in and may be able to vote a regular ballot. Voter will provide proof of identification. If a voter who lost or don't remember will be able to vote a regular ballot. However, the first ballot counted negates all other ballot.

IMMEDIATELY REPORT ANY INSTANCES OF THE FOLLOWING:

- Shortage of ballots/malfunctioning ballot printers
- Malfunctioning voter equipment
- Unusually long lines
- Intimidation/coercion/harassment of voters by any person

VOTE HARVESTING LAW

In 2016, Arizona enacted H.B. 2023, now codified at A.R.S 16-1005(H)-(I), which limits who may possess another's early ballot. While this law was challenged in the courts, the Federal Court ruled in favor of the law on September 23, 2016, thereby making this law official and enforceable. H.B. 2023 provides:

- A person who knowingly collects (gain possession or control of) voted or unvoted early ballots from another person is guilty of a class 6 felony. This law does not apply to the following permitted exemptions: an election official, a United States Postal Service worker or any other person who is allowed by law to transmit United States mail is deemed not to have collected an early ballot if the official, worker or other person is engaged in official duties.
- A family member defined as a person who is related to the voter by blood, marriage, adoption, or legal guardianship.
- A household member, defined as a person who resides at the same residence as the voter:
- A caregiver of the voter, defined as a person who provides medical or health care assistance to the voter in a residence, nursing care institution, hospice facility, assisted living center, assisted living facility, assisted living home, residential care institution, adult day health care facility or adult foster care home;
- An election held by a special taxing district formed pursuant to Title 48 for the purpose of protecting or providing services to agricultural lands or crops and that is authorized to conduct elections pursuant to Title 48.

If you see someone dropping off a large number of ballots (i.e. more than three), please immediately inform the Inspector or another member of the Election Board. Please ask the Inspector to fill out an incident report. Additionally, please report the incident to the AzRLA hotline immediately.

You should NEVER confront the person dropping off the ballots, do anything that might disrupt the orderly conduct of the election, or potentially place you in risk of harm. If possible, please

take written notes on approximately how many ballots he/she dropped off, the physical characteristics of the person; and if possible - and only while outside of the polling location, get a picture of them or the license plate of their vehicle in the parking lot. It is important to remember that (1) taking photographs/videos within the polling place is strictly forbidden; (2) you never put yourself in a potentially dangerous/risky/harmful situation and (3) that voters do not perceive your actions to be intimidating.

BALLOT HARVESTING

Also known as Ballot collecting, is the gathering and submitting of **completed** absentee or mail in voter ballots by third-party individuals, volunteers or workers, rather than submission by voters themselves directly to ballot collection sites. In Arizona it is perfectly legal to carry a Ballot for your immediate family to a drop box or to an early voting site.

It is NOT legal to carry and deliver a box of ballots (or an armload) to a drop box, early voting location, or a Polling Place that have been collected from neighborhoods or from other high occupancy sites.

INACTIVE VOTERS

Prior to the election, the County Recorder has sent several letters to all voters. When these are returned as undeliverable, the Recorder places the voter on a separate list of so-called "inactive voters". These are registered voters, and the statute provides that, if they come to the polling place, they "shall be allowed to vote". If the voter affirms they reside at the same address, they are allowed to cast a regular ballot. However, if their answers show that they have moved within the same precinct, they are to cast a "provisional ballot" (see below), and if they have moved to a different precinct, they are to be sent to their new precinct to vote a provisional ballot there, unless they moved after the close of registration (29 days prior to the election).

EARLY BALLOTS

A voter with a completed early ballot may go to the polling location on Election Day and present an ID. The ballot will then be stamped "ID Verified".

Voters who fail to mail their early ballots early enough to assure that they will arrive at county headquarters in time to be counted (7:00pm on Election Day) may bring them in person (or send them via an "agent" in compliance with the provisions of H.B. 2023) to any polling place in the county. A voter who brings in his/her unmarked early ballot may complete it at the polling place. The ballot will then be stamped "ID Verified". The statute requires early ballots received at the polling place to be deposited inside a secured compartment in the main ballot or in a separate sealed ballot box, which will be transported to County headquarters for processing.

VOTER IDENTIFICATION

Before receiving a ballot, voters must show proof of identity at the polling place. **The information on the proof of identity must match the information in the precinct register in order to vote a regular ballot.** The proof of identity may be (a) one form of identification with the voter's name, address, and photograph (List 1); (b) two different forms of identification with the voter's name and address (List 2); or (c) a combination of the first two (List 3).

A voter who is unable to show proof of identity will!! receive a conditional provisional ballot (not just a provisional ballot) as described below.

VOTER IDENTIFICATION (continued)

Acceptable forms of identification with name, address, and photo (one required) include:

- Valid Arizona driver's license
- Valid Arizona non- operating identification license
- Tribal enrollment card or other form of tribal identification

VOTER IDENTIFICATION LIST 2

Acceptable forms of identification with name and address (two required) include

- Utility bill dated within 90 days of the election
- Bank statement dated within 90 days of the election
- Valid Arizona vehicle registration - Indian census card

- U.S. Passport without address and one valid item from List 2; or
- U.S. Military identification without address and one valid item from List 2

(A student ID and/or a credit card are not an acceptable form of identification for List 2 or 3)

A voter who identifies himself or herself as a member of a federally recognized Native American tribe and who does not provide the identification described above may receive a **provisional ballot** upon presenting one form of tribal identification that bears the voter's name. A voter who identifies himself or herself as a member of a federally recognized Native American tribe but does not present the identification described above or a form of tribal identification that bears the voter's name shall receive a **conditional provisional ballot**.

PROVISIONAL VOTING

There are several circumstances under which a ballot cast at the polling place must be kept separate and not mixed with other ballots until it can be verified at a county election headquarters.

- A voter shall receive a provisional ballot if:
- The vote has been issued an Early Ballot (see Early Ballot section above),
- The voter's name does not appear on the signature roster or inactive list, and the vote has not moved,
- The voter has moved within the precinct
- The voter has moved into a new precinct within the same county
- The voter has changed his or her name, or
- The voter is challenged at the polling place.

In the counties which require votes be cast at the polling location assigned specifically to the voters voting precinct, will be given a provisional ballot in the wrong polling location.

A voter shall receive a conditional provisional ballot if

- The voter has not provided sufficient identification at the polling location

In order for a conditional provisional ballot to be counted, the voter must provide proof of identification to the county recorder's office by 5:00pm on the fifth business day after the election. conditional provisional ballots and provisional ballots must be kept separate.

CHALLENGING PROCEDURE

As a general rule, we do not challenge voters. If you notice a problem, please let the Inspector know and/or call the AzRL hotline if you cannot resolve the problem immediately. **Do Not challenge a voter or address any voters directly.**

GROUNDS FOR CHALLENGING

- 1) The Voter has Moved.
- 2) That the person is not the person whose name appears on the register.
- 3) That the person is not a qualified registrant under A.R.S. 5 16-101, which requires that he:
 - a. Must be a citizen of the U.S. (This should not be used as a ground for challenging without documentary proof of non-citizenship).

- b. Must be at least 18 years of age.
- c. Must have been a resident of Arizona for twenty-nine days preceding the election.
- d. Must be able to write his name or make his mark, unless prevented from so doing by physical disability.
- e. Must not have been convicted of a treason or a felony, unless restored to civil rights.
- f. Must not have been adjudicated an incapacitated person.

OTHER THINGS TO CONSIDER

- 1) Poll watchers working on the morning shift should be present at a polling place prior to 6:00am to observe the process of setting up the voting equipment and opening the polls. It is also important for poll watchers to be present at 7:00pm when the polls close. Anyone in line to vote at that time should be allowed to cast his or her ballot. Poll watchers may also wish to accompany the ballot boxes as they are transported from the polling places to county headquarters or other designated collection points.
- 2) If any election official intentionally fails or refuses to carry out his duties after you have specifically corrected him or explained the proper procedures, refer him to A.A.R.S, 5 16-1010 and submit a report via the az.gop/edo site or calling the AzRLA Hotline.
- 3) Remember that advisors are available at the AzRLA Hotline which has been provide to you to help you either by phone or in person if necessary. Be sure to call the AzRLA Hotline or submit an incident report at az.gop/edo immediately if you have any questions or problems that you are unable/not equipped to resolve yourself.
